		March 27—.....	Spring Term begins.
		June 16—.....	Spring Term closes.

*Ten days vacation during the winter term, including the holidays.

Miscellaneous.

BALDWIN CITY, the seat of Baker University, is situated on the Leavenworth, Lawrence and Galveston Railroad, in the midst of a rich, beautiful, healthy, and well cultivated country. It is free from the immoral influences so common in larger towns and cities. No intoxicating drinks can ever be sold within its limits.

The people are intelligent, refined and social. Population about five hundred.

As a place of residence for those who desire to educate their children religiously, as well as mentally, it cannot be excelled in the West.

Rules.

The rules of the University require every student to be in his place at all stated exercises, from the beginning to the end of his connection with the University.

For every instance of absence, tardiness or failure in recitation, a satisfactory excuse must be rendered to the proper officer.

All unexcused delinquencies will be noted, and when the number exceeds five, notice shall be given to the parent or guardian; when the number exceeds ten a public acknowledgment shall be made by the student; and when the number exceeds fifteen, the student ceases to be a member of the University.

Students may be suspended, dismissed or expelled by the Faculty, when, in their judgment, they are pursuing a course of conduct detrimental to themselves and the University.

Students should be prompt at the opening of the Term, and continue to the end, and must not absent themselves from town without permission from the President.

It is presumed that every student will deport himself, while at college, with the same propriety which he would feel bound to observe elsewhere in society. Students are assumed to be gentlemen and ladies and they will be treated as such.

During the hours set apart for college exercises, it will not be in order for students to linger about the grounds, the passages, or the vacant rooms.

It will not be in order, at any time, to throw any kind of missiles upon the college premises, except such as are used in games of recreation permitted by the president.

It is not in order to make use of tobacco in any form upon the college premises.

Study hours from 8 A. M. to 12 M.; from 3 P. M. to 5 P. M.; and from 7 P. M. to retiring.

Students are required to attend church on Sabbath morning:

A daily record of merit and demerit of every student, in deportment and recitation, is kept; a copy of which will be sent, when desired, to parents or guardians, at the close of each term.

Admission.

Candidates for admission into the Preparatory Department must have made some advancement in the elementary branches of an English education.

Candidates for admission to the Collegiate Department must be at least fourteen years of age, and are expected to present satisfactory evidence of good moral character.

Candidates for advanced standing will be examined in the previous studies of the course which they propose to enter.

Entering the University will be regarded as a pledge to obey *all its rules and regulations*.

Examinations.

Each class is examined at the close of every term, orally or in writing, in the several studies pursued, before committees appointed for that purpose; and the results of these examinations have an important bearing upon the standing of the student, on his advancement from class to class, and in some cases his continuance in college.

The last two days of each term will be devoted to the examination of classes.

Degrees.

The Degree of Bachelor of Arts is conferred upon students who complete the Classical Course, and pass a satisfactory examination upon the same.

The Degree of Bachelor of Science conferred upon students who complete the Scientific Course, and pass a satisfactory examination upon the same.

The Degree of Master of Arts may be conferred in courses on every Bachelor of Arts of three years' standing, who has been engaged since his graduation in some literary occupation, and has sustained a good moral character. Applications should be made to the President as early as the Monday preceding commencement, advancing the usual fee.

Chapel Service.

The Faculty and students meet every morning for religious worship, which consists of Scripture reading, singing and prayer.

A weekly prayer meeting is also sustained.

Rhetorical.

Original orations and essays by the advanced classes every Friday afternoon. The lower classes are required to declaim and read essays before the several Professors every two weeks.

Elective Studies.

If a satisfactory course cannot be found in the regular curriculum, certain studies can be substituted by permission of Faculty, so that reasonable satisfaction can be given to all.

Music.

It is the design of this Department to furnish a complete musical education. Experienced Teachers are employed, and good instruments for practice furnished. Students who will avail themselves of the facilities furnished, cannot fail of becoming thorough and competent musicians and successful Teachers. Special attention is paid to vocal music.

Report on Education adopted by the Southern Kansas Conference.

Your committee commend the cause of education in words of Scripture, "Add to your faith virtue, and to virtue knowledge."

Whereas, Our educational interests are second to none, and history shows that the progress of Christianity and schools of learning have been one and the same; and whereas many of the children of Methodist parents in this State are receiving instruction in the convent, and hundreds are demanding of the church educational advantages, it is absolutely imperative, therefore, that our church come to the relief of their only college in this great commonwealth, Baker University, and relieve it of its embarrassment, and equip it with all the appliances of a first-class college.

Your committee, after carefully traversing the whole ground, commend the college to the favor and the patronage of the church and public.

The only real embarrassment your committee find, is a debt of about \$17,000, of which \$7,000 is now due, and the remainder in 1880; but, as there are promises of aid that can be relied upon, and trusting to the liberality of the church, your committee believe that by earnest and united effort the present indebtedness may be met, and the bonded debt paid as it falls due.

Resolved 1st, That a vote of thanks be and is hereby tendered to the commission on Baker University, and especially to Hon A. H. Foote and Rev. S. P. Jacobs, the sub-committee of the commission, for their valuable report and history of Baker University, and of the Educational Associations of the M. E. church of Kansas.

2. That the report be preserved with the papers of the conference.

3. That Baker University should be placed in a proper legal attitude to its creditors; that this be done either by the transfer of the property of the Kansas Educational Association of the M. E. church to the trustees of Baker University, or by the above named association assuming, in its corporate capacity, the debts incurred by the trustees of Baker University.

4. We recommend that the Kansas Educational Association be reorganized upon some such plan as that recommended by Dr. E. O. Haven, and hereafter to be simply a conservator of real estate for Baker University.

5. We recommend that the Board of Trustees appoint one member of the faculty as agent and the others as assistant agents; said faculty to receive no additional salaries as agents.

6. That we have entire confidence in the qualifications and integrity of the faculty; that we admire their heroism and devotion to the cause of Education, and will come to the aid of the college by every just and legitimate means.

7. That we will welcome the faculty to our charges and co-operate with them in taking collections and in securing donations for the college; and that the annual Educational collections be appropriated to the support of the faculty, taking their receipt for the same.

8. That we will urge upon our people the importance of Christian education, and encourage promising young men and women to seek a college education at Baker University.

DONATIONS.

Each annual catalogue will contain an itemized report of all donations and bequests to the college, which has been made during the year, for whatever purpose. And if any donation is not therein reported, the donor will confer a favor by reporting such error to the President of the Faculty for correction.

The following donations are acknowledged :

President S. S. Weatherby, on salary.....	\$900.00
Prof. W. H. Sweet, "	725.00
